SUMMARY

A professional Website Developer specializing in Frontend Development with over 2 years of experience in building responsive, interactive, and user-friendly web interfaces. Skilled in translating UI/UX designs into high-performance, functional websites using technologies such as HTML, CSS, and JavaScript, along with modern frameworks like React.js, Next.js and Tailwind CSS. Adept at working both independently and collaboratively within development teams, with a strong focus on code quality, efficiency, and delivering optimal user experiences.

SKILL

Programming Language : JavaScript, Python, PHP, HTML, CSS
Tools : React.js, Next.js, MySQL, MongoDB, Figma
Interest : Frontend Developer, Backend Developer, Data Analyst, UI/UX

EXPERIENCE

PT BHAKTI WIDYA INFORMATIKA

Oktober 2024 – Present

Developer Team

- Developed a full-featured Point of Sale (POS) web application using Next.js for the frontend and Express.js for the backend, enabling real-time product management, sales processing, and transaction tracking.
- Designed clean, intuitive, and responsive user interfaces using Figma, ensuring seamless user experience across desktop and tablet devices.
- Optimized performance and maintainability by applying best practices in frontend architecture, component reuse, and state management.

PT DIMATA SORA JAYATE

Mei 2023 – Agustus 2023

Web Developer Intern

- Developed a Customer Service Management Information System using PHP with the CodeIgniter framework.
- Designed and implemented key features such as ticket management, allowing users to create, track, and resolve service tickets efficiently.
- Created responsive and user-friendly UI/UX designs using Figma, ensuring ease of use for both customer service agents and administrators.

- Collaborated with the development team to integrate backend logic with frontend components, maintaining clean and maintainable code structure.
- Successfully delivered a system that helped streamline customer service operations and improved response time and issue resolution efficiency.

PERSONAL PROJECT

DIGITAL INVITATION WEBSITE

Oktober 2024 - Present

- Developed a web-based digital invitation platform that allows users to create and share personalized event invitations.
- Designed custom UI layouts and visual assets using Figma and Adobe Photoshop, ensuring a modern, elegant, and responsive design across various devices.
- Built the frontend with Next.js, utilizing dynamic routing and server-side rendering for improved performance and search engine optimization (SEO).
- Styled the interface using Tailwind CSS, focusing on mobile-first design principles and reusability.
- Implemented backend functionalities using MongoDB to store event details, user data, and RSVP submissions.

EDUCATION

UDAYANA UNIVERSITY

Graduate Bachelor of Computer Science

Bali, Indonesia

July 2021 – Februari 2025

CERTIFICATION

LEARNINGX ACADEMY

Fullstack Web Development

Februari 2024 – Juni 2024

BANGKIT ACADEMY

Cloud Computing Specialist

Agustus 2023 – Januari 2023
